## WHO WE ARE?

More than just a company, Lynxmind embody a vibrant community of exceptional talents and qualified people around the world.

As a leading IT consulting company, our foundation is built on two pillars: **employee's wellness and client satisfaction**. They are always our priority and **our driven force to success**.

We believe that the key to thriving in the professional field and finding true satisfaction in our work lies in staying motivated and passionate about what we do. We're constantly seeking for new projects and challenges, that's why we proudly position ourselves as **your trusted and reliable choice**.

## MISSION

Foster a culture of **wellness and collaboration** within our team that translates into **exceptional and quality service**. Always building **enduring relationships with our clients** that are grounded in trust and **mutual success**.

## VISION

We want to be recognized as a referenced company for the **quality of services** provided while promoting **strong bonds and healthy environment** between our professionals. This vision serves as a guiding force for our strategic decisions and to inspire our team to **achieve greatness together**.

## VALUES

**Flexibility:** We pride ourselves on our ability to easily adapt to our client needs, ensuring exceptional solutions.

**Smart Working:** Our commitment to efficiency is matched only by our dedication to innovation and excellence.

**Loyalty:** We value transparency and trust, whether between the team or with our clients.

# OUR CLIENTS

We take immense pride in collaborating with some of the most influential and pioneering players in the market.

# WHAT WE DO?

From middleware integration and IT operations to enterprise cloud solutions, SAP consulting, and digital experience, we deliver tailored solutions that unlock business's full potential.

## INTEGRATION SERVICES

Our Middleware Integration Services are designed to ensure business systems communicate flawlessly, powered by leading technologies such as TIBCO, Mulesoft, Confluent Kafka, and Java Spring.

## IT OPERATIONS

We ensure smooth system performance through proactive monitoring and DevOps practices, driving continuous improvement. With Checkmk, we enhance visibility, response times, and operational efficiency.

## ENTERPRISE CLOUD / SAP CONSULTING

We optimize infrastructure and processes with Azure, AWS, and SAP solutions, from cloud migrations to S/4HANA implementations, driving smarter growth.

## DIGITAL EXPERIENCE

From web and mobile development to intuitive interfaces, we craft tailored experiences that boost customer engagement and drive growth.
